# KEYBOARDS and DIGITAL-PIANOS

2007

BPL-EMI E 4/07

# CONTENTS

## Dear YAMAHA customer!

You are holding our current export product line in your hands. This provides you with information regarding the entire Yamaha range in compact format. Illustrations and explanatory notes will guide you through it.

You will receive detailed information, brochures and expert advice from your YAMAHA dealer. Of course, you can also put the YAMAHA instruments through their paces there.

Our address is shown overleaf should you wish to contact us directly.

Of course, you can also submit any queries, requests, suggestions or orders for catalogues on the Internet at www.yamaha.de.

We hope you will enjoy this brochure and, of course, the instruments.

Your YAMAHA team

You will also find more information, software, tips and tricks on the Internet at:

Internet: http://www.yamaha-europe.com
http://www.yamaha.co.jp
http://www.yamaha-tyros.de
http://www.clavinova.de

The descriptions and photos in this brochure are for information only. YAMAHA reserves the right to change the products and technical data at any time without notice. As the technical data may vary from country to country, please obtain information from your Yamaha dealer. No liability is accepted for printing errors.

MUSIC SCHOOL

## THE YAMAHA MUSIC SCHOOL

In the five decades of its existence, the YAMAHA music school has developed pioneering concepts for the teaching of music. In an international context, for example, the programmes based on fundamental research for children of pre-school age are unique. At the YAMAHA music schools, cognisance is taken of current educational trends and findings, and these are put into practice. The teaching programs are constantly updated and are therefore always in line with the latest trends in research into the teaching of music.

YAMAHA MUSIKSCHULE

Learning with others is a particularly effective method of teaching. This is what our experience over the last decades has shown: by joining in, listening and making a contribution within a group, children, young people and adults quickly develop their musicality and the pleasure they get from playing. The open group lesson is therefore a firm part YAMAHA's teaching programme.

The teaching programmes and highly trained teaching staff of the YAMAHA music schools are designed to provide versatile and comprehensive musical encouragement for children from as young as 4 months. Seamless follow-up teaching programmes and methods, which are carefully designed for communication appropriate to the particular age group, ensure that optimum use is made of a child's current development window. Young people and adults can realise their musical dreams in every musical genre.

**WE HAVE BEEN SPECIALISING IN LEARNING THROUGH FUN FOR DECADES!**

## An overview of the lesson range:

### For pre-school children:

| | |
|---|---|
| **Robbie:** | Introducing infants from 4-18 months to music |
| **Toddlers:** | Musical hour of playing for children in the age of 1,5-4 years |
| **Music Wonderland:** | Musical early education for children in the age of 4-6 years |
| **Hörbie and Tönchen:** | Musical elementary education for pre-school aged children, including a keyboard instrument |

### Instrumental programmes:

| | |
|---|---|
| **Magic Flute:** | For children from 6 up, young persons and adults |
| **Fun with six strings:** | Guitar group lessons for children from 6 up, young persons and adults |
| **Keys 4 Music:** | Piano group lessons for young persons from 10 up and adults |
| **Fun Key Kids:** | Piano- or keyboard group lessons for children in the age of 6-10 years |
| **Fun Key:** | Keyboard group lessons for young persons from 10 up and adults |

### Rock/Pop Instrumental Program:

**The YAMAHA Popular Music School**

Even pop stars had to start somewhere! In our "YAMAHA Popular Music School" we practice with professional playbacks right from the start. This helps us to understand the musical relationships better, and it's also great fun. We have courses for: Drums, E-Bass, E-Guitar, Keyboard, Saxophone, Flute and Vocals.

For more informations see:
www.yamaha-musikschule.de

## YAMAHA Keyboards - for everybody.

**Keyboards for beginner:**

Make music = make happy + move the soul + train the brain! With YAMAHA's keyboards for beginners, starting to play is as easy as 1+1.
Welcome to the world of music-making pleasure!
Even the smallest YAMAHA beginner's keyboard offers comprehensive help and learning functions, making it perfect company in music lessons and great fun at home.
From the beginning, YAMAHA keyboards are easy to use and a pleasure to play.

**Portable Grand Pianos:**

"...wish I could play piano...or keyboards..."
Why not both? The super versatile Portable Grand Piano Series lets you mix and play classical piano and modern keyboard whenever you like.
The key spread meets a piano-man's demands and is still portable; the built in music data-base takes care of organising repertoire; the sound, functionality and design are all in state of the art YAMAHA quality.

**Home Keyboards:**

The new middle class YAMAHA keyboard offers excellent sound-quality and first class musical accompaniment styles. It's easy to work with and a pleasure to play.
And it comes with YAMAHA's Mega-Voice-Technology and Super-Articulation-Voices: two features, previously exclusive to the top class Tyros2, which put new life into whatever you play!
You can read your notes and lyrics from the built in display and go online with your instrument to download the latest songs.
You want to record your performance, vocals and all? No problem! The Audio to USB function records to any USB storage device as a *.wav file.

**Entertainer Keyboards:**

The YAMAHA top class keyboard is a state of the art instrument for home, studio and stage.
It features YAMAHA's unique Mega-Voice-Technology, Super-Articulation-Voices and hundreds of new reference-quality accompaniment styles. More than that: the Musicfinder's hundreds of entries keep your repertoire organised; the notes and lyrics display supports your performance and the built in hard-disc recorder records it whenever you want, including your own timbres and effects you made using *.wav files and including extra voices produced using the Vocal-Harmony feature.
That's all you'll ever need to get a head start as a semi-pro or full-time entertainer.

KEYBOARDS

Yamaha Keyboards

ENTRY-LEVEL KEYBOARDS

Entry-level keyboards

PSR-E213

## The new entry-modell with many new voices and a stereo piano sound.

PSR-E213

## Digital Piano Keyboards: Overview

YAMAHA

### Weighted Keys: Overview:

**Natural Wood, Graded Hammer Keys, NW**
with natural wood reinforcement of white keys
Weighted: left heavy, right light 3 contacts for touch-sensitivity, as GH3 keyboard
e.g. CVP-309GP, CVP-407, CVP-409PE/-PM, CLP-280, CLP-280PE/-PM,

**Graded Hammer3, GH3**
Weighted: left heavy, right light
2 sensors per key for touch sensitivity
(3 contacts, high - mid - low)
e.g. CVP-403/PE/-PM, CVP-405/PE/-PM, CLP-230, CLP-240, CLP-270

**Graded Hammer, GH**
Weighted: left heavy, right light
1 sensor per key for touch sensitivity
(2 contacts, also known as GH2)
e.g. P140, CP33, CP300, CVP-401/PE, CLP-220

**Graded Hammer Standard, GHS**
Weighted: left heavy, right light
e.g. P70, DGX-620, YDP-S30/YDP-S30C

**CVP Family Entertainment:**

There's an instrument for the whole family in the new Clavinova CVP series:
YAMAHA's classy combination of the elegance and playing pleasure of a traditional piano with the technical possibilities of a modern keyboard instrument.
Perform a classical Ètude or beat out a boogie with a big band backing:
the right sound is ready for you in state of the art timbres and innumerable accompaniment styles, all at your fingertips via the MusicFinder feature.
If you want more songs and styles, you simply go online with your instrument and download them. And when you want to record your performance, the Audio to USB function records it, vocals and all, to any USB storage device.
For both experienced pianist and beginner, a CVP Clavinova is a musical jackpot.

**CLP Clavinova Classic:**

The Clavinova CLP series combines elegant design with state of the art digital technology.
You used to play piano and you want to get back into it? Check out Clavinova CLP!
These instruments are not just for the classically oriented beginner or music student. The professional pianist who demands authentic piano sounds and perfect keyboard precision will also find the Clavinova CLP to suit him. Practise to the built in metronome, use the recording function and play along with what you've recorded and perform your Moonlight Sonata at midnight without waking anyone: yes, of course the Clavinova has a headphones output.

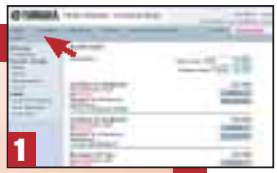
www.downloadshop.yamaha.de

including chart titles, hits, oldies, pop, rock, evergreens, classical music, folk music, medleys, etc... In the YAMAHA download shop anyone can locate new ideas and inspiration for their musical repertoire.

## It's so easy to download files:

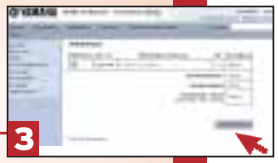
**1** GO TO THE START PAGE, look for a title, listen to a sample (Demo) by opening "PRODUKTE" from the top menu



**2** REGISTER AS A CUSTOMER: by selecting "ANMELDEN" in the top right of the site

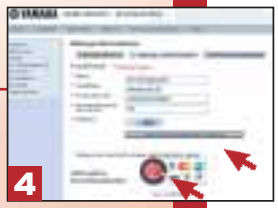
**3** ADD TITLES TO YOUR "WARENKORB". Confirm the total for the shopping basket

**4A** PAYMENT VIA CREDIT CARD. Enter your e-mail address and password. Enter name, credit card + verification number and the expiry date. (Visa / MasterCard)



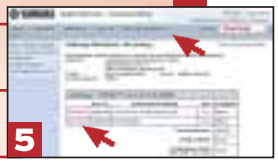
**4B** PAYMENT VIA CLICK & BUY SERVICE. Register at C+B, decide the payment option. Continue shopping after your C+B account has been confirmed.

**5** CONFIRM. The necessary information is sent to you by e-mail. To DOWNLOAD the title you have purchased please click "Mein YAMAHA Konto", select "Auftrags-Übersicht".



**6** SAVE THE FILE ON YOUR PC and copy it to floppy disk or USB stick.

**7** LOAD AND PLAY BACK THE TITLE ON THE KEYBOARD



- Top midi files & styles with YAMAHA's standards of quality
- Created by our in-house programming team
- Hits for parties and live concerts
- Great rhythms for solo entertainers
- Pieces to practice
- Arrangements with which to play or sing along
- For professional musicians
- For home enthusiasts
- For entertainment or karaoke shows

www.downloadshop.yamaha.de

- Weekly upload of new titles, Charts and Standards
- More than 850 songs / 530 styles / 40 packs available
- Since May 2006: nearly 100 Songs in new TYROS2 format
- Since August 2006: new shop, alternative payment methods
- Search functions for title, artist and style
- Download of low prized single titles and packages
- Listen to a audio demo (MP3) before you buy
- Only € 5.50 per song or style (€ 7,90 for XT2 songs and medleys)
- 10% discount for more than 10 titles
- Secure payment by credit card (Visa / MasterCard) or Click&Buy
- Song and Style formats XT/2, X9, XA, GM inside Zip-File
- With lyrics, musical notation and vocal harmony track
- Optimised for YAMAHA keyboards + Clavinova

**With our MIDI files you can get the best music out of your instrument, and even scores and lyrics in the display. We provide you with just what you need for any style of music.**

Buying from YAMAHA on the internet is easy. Simply follow the instructions on your computer screen. You can find what you are looking for and receive the data automatically.

NEW CUSTOMERS we recommend to register first. Go to "Anmelden" on top right of the site and fill out the given registration table. You define a PASSWORD (KENNWORT) by yourself, please keep it in mind always. Along with your email address, your password will identify your access to our shop. Filling out the registration form correctly will secure a stable shopping and download service.

Before starting your search, be ready with your CREDIT CARD details (Visa, MasterCard). If you don't own a credit card, our new shop offers alternative payment methods like bank collection, handled by CLICK & BUY. This service requires an independent registration. Find more about the C+B service under www.clickandbuy.com.

Please read our "terms of use" (AGBs) under "Service" before starting your shopping tour.

**You should set out from the appropriate START PAGE.**

A gray navigation layer is situated in the area to the left, as well as on the horizontal top line. It enables you to move back and forth between the various areas of the download shop at any time.
Under "PRODUKTE" you can use a variety of different search functions to find the titles you want, be they midi files, styles, registrations or packs.

....on subsequent pages →→

- **SEARCH BY ARTIST:** Sorted alphabetically by first name e.g. look for "Robbie Williams" under: Robbie or "Green Day" under: Green Day
- **SEARCH BY TITLE:** This gives you the chance to look for titles alphabetically.
- **SEARCH BY STYLE:** This capability lets you search for items that match your own personal taste or any musical style that you need.

- **FULL TEXT SEARCH:** At the very right of top navigation bar you find a full text search engine. You can look for any title, artist, format or other term you like.

When you have found what you want, activating the DEMO buttons lets you hear the selected title before you buy it. You listen to a short audio sample (MP3) recorded directly from keyboard after playback of the top midi format, e.g. XT.

If you like what you hear, then select that product by pressing the WARENKORB button. Make sure you have correctly chosen either the SONG (midi file) or the STYLE (rhythm accompaniment) for the title in question.

This need not be your final selection, though. You can first collect titles in your shopping basket. You can change what you have collected at any time, for example by simply deleting (ENTFERNEN) from the WARENKORB any song you decide you don't want after all. The shopping basket also gives you a running total of the price and the number of titles you have ordered so far. Any further titles you select will be added to the list in your shopping basket.
From there you can always press the EINKAUF FORTSETZEN button to return to the product selection for more titles that you can add to your shopping basket.

Please check through all the titles you have selected to make sure that you do not make an incorrect order. Also, you should not forget to read our General Terms and Conditions (AGB´s) under "Service".

Press the ZUR KASSE button to submit your order.
Next comes the form for you to enter your personal details. You must provide your E-MAIL ADRESS. This serves not only for identification purposes but enables us to contact you in case of any problems, e.g. with the download connection. It is also important to enter a personal KENNWORT (password) for yourself on the line below. A confirmation of your order will be sent to the e-mail address you enter. For customers who are already registered, it is enough to enter your e-mail address and password, then press the WEITER button.

## A 3-stage payment process will follow.

**1.** You will see a pre-filled KUNDEN-ADRESSE (customer address form). Please check or make corrections on your personal data.

**2.** The next page is the payment form ZAHLUNGS-INFORMATIONEN. This is where you enter your credit card details. Make sure you correctly enter the information for your (card owners) name, the 16-digit number (omitting any spaces), the expiry date of your card, as well as the verification number. Confirm the credit card purchase by pressing WEITER FÜR KREDITKARTEN-EINKAUF.

If you decide for the new alternative CLICK & BUY service (e.g. for bank collection or other payment methods), please press the prominent round Click & Buy button.

**3.** You will get to the page AUFTRAGS-BESTÄTIGUNG (order confirmation). For the very last time you now have the chance to adjust the content of shopping basket. You may not object later to titles you have selected so make sure you have ordered the right ones. Make sure, too, that you have correctly selected "Song" or "Style", since these are often listed one after the other under the same title. Submit the payment process and press WEITER.
You will see a message page like "Danke für Ihren Einkauf", shortly after you will receive a confirmation e-mail informing about your latest successful purchase. Please save this e-mail, as its used as an invoice document.

Your purchased data are now ready for DOWNLOAD. Please go to MEIN YAMAHA KONTO / AUFTRAGS-ÜBERSICHT. Any purchased title is listed here. Press "Click" in the DOWNLOAD column - left to the article - and the relevant file will be saved on your PC in the folder that you specify.

The files you download are provided as a compressed zip file. You can open this by double clicking on it in the selected folder of your PC or Mac. From there you can copy it to floppy disk (or USB stick) so that it can be loaded into your instrument and played. If the necessary decompressing program (WinZip) is not installed on your computer, you need to install the program in order to access your files.

If an attempted download fails to complete, you have no need to worry. You are allowed up to ten attempts to complete the download. The link is only disabled after the tenth such attempt has failed. If this occurs, and also in case of any difficulties, please get in touch with our support hotline (e-mail: softwarebestellung@yamaha.de) and we will help you soon.

We hope you have a lot of fun using your YAMAHA Software!

The YAMAHA Music Software Team

Important!
This download service is provided by Yamaha Music Central Europe GmbH (25462 Rellingen, Germany) in cooperation Yamaha Music Interactive, Inc (New York, USA). The midi files provided in this section of the download shop are mostly made in Germany. Yamaha Music Interactive, Inc. provides the international Yamaha server system for handling data traffic. The processing of data and payment processing for the contents of the shop are thus handled in the U.S.A. at this time.
